SAGE Group
1284 South Road
Tonsley SA 5042

Dear Hiring Team,

I am writing to express my interest in the ICT Summer internship program with SAGE Group. I am pursuing my Master of computing and innovation in University of Adelaide with excellent academic result of high distinction and had finished my Bachelor of Commerce majoring in Finance & Mathematics and Statistics with result of Distinction in University of Western Australia, which fully affirms my good learning ability and professional attitude.

During my recent internship with CNRS (IRL Crossing Lab), I had the valuable opportunity to contribute significantly to my technical skill set by serving as a robotic developer for a challenging robotic competition. This experience not only enhanced my technical abilities but also allowed me to push the boundaries of conventional approaches. I proactively employed innovative and audacious strategies to tackle and surmount the intricate challenges with my team presented by the robotic competition. This hands-on experience was instrumental in expanding my technical proficiency and fostering a creative problem-solving mindset, which I believe will serve me well in my future technical role.

In addition to my academic pursuits, I have gained valuable experience working as an international peer mentor at UOA, an undergraduate mentor at UWA student central, and a sales associate in retail. These roles have allowed me to establish strong relationships with colleagues and students and have further developed my interpersonal communication skills in a client-friendly manner. I have also learned how to plan and arrange my time more effectively and collaborate with others from different levels.

The summer internship offered by SAGE bridge the gap between the university curriculum and real-world application. Along with growing professionally, I'm excited to see the company offers a wide range of learning opportunities which align with my goal to be a professional talent who can create value for the company later. I'd love to put my skills to work for SAGE Group. And I will try my best to contribute to the company in the best way that I can. Considering my academic excellence and my experience in the highly relevant field, I am confident that I am capable for contributing to this company.

- **Degree Name:** Master of computing and innovation
- **Required length of internship:** 3 months - 6 months
- **Preferred internship timing:** 2-3 days weekly before Nov, available full time during summer
- **Expected graduation date:** 6/2024
- **Current year of degree:** last year

I'd appreciate the opportunity to discuss the position and your needs for the role. Please contact me at your convenience.

Best wishes,
Rebecca Li
